These combined attributes allow us to provide powerful therapeutic options to patients fighting salivary gland cancers. They assigned us a health advocate who was with us every step of the way.

But for him, cancer's just another opponent to beat. A Legacy of Hope: Early research shows promise. The nurses, doctors and aides treat you like family. But a problem with the puffery argument is that many prospective City of Hope patients are inclined to seek miracles consistent with their religious or spiritual attitudes.

City of Hope is hardly the only major cancer center to be hyping its ability to treat Cancers Highly experienced in diagnosing and treating patients with gastrointestinal cancers, our multidisciplinary team of specialists is persistent in pursuing new research and therapies to improve outcomes for abnormalities of the digestive system, specifically the colon, rectum, esophagus, stomach, carcinoid, biliary tract, pancreas, small intestines and gallbladder. It should not take a miracle for City of Hope to replace its miracle campaign.
