There is this inherent friction between the items referenced in the book because the bracket segmenting the decades covered within it are so widespread. Twoyearsago,Icouldbeprettysurethatalmostnooneunder50wouldgetajoke only real issue with this book and it's not so much an actual issue as it is a disappointment is that this book features largely British items and brands, and as a Canadian I would say I was left in the dark on many of the exclusively British Dodos.
