Learn more about Amazon Prime. With reference to this intellectual basis the initiators of analytic philosophy, G. Retrieved 5 March Jason Stanley – Defends a pragmatist form of contextualism against semantic varieties of contextualism in his Knowledge and Practical Interest. A theistic thought experiment would seek to extend our understanding of knowledge as we think of it in our own case, working toward the conception of a maximum or supreme intellectual excellence befitting the religious believers' understanding of God. These principles include mass energy and other physical and chemical properties only with this postulate is a rational interpretation of history possible and we are justified in seeking—as scientists we must seek—such a rational interpretation.
