An unknown number of systems were deployed to Syria beginning in The spread of extremist ideology and the activity of terrorist groups in a number of regions primarily, in the Middle East and North Africa are the result of systemic development problems that globalization processes have laid bare. In the context of efforts to strengthen regional stability in Europe, the Russian Federation seeks to bring the conventional arms control regime in Europe in line with current realities, as well as ensure unconditional compliance by all States with the agreed confidence and security-building

measures.

Russia charges the United States with the following practices: They fall into  
After successive U. Yet, disagreements over treaties, missile  
defense, and approaches to nonproliferation have created  
additional challenges. Syria did not hesitate to act because  
it believed that the other Arab states would support it and  
Israel was not capable of defeating it.
