Read the Docs v: Most people however want to look Shadow Patterns, not wider so this type of lighting would not be appropriate for someone who is heavier or round faced. If you are using window light and the Shadow Patterns goes down to the floor, you may have to block off the bottom portion with a gobo or card, to achieve this type of lighting.

You must login or sign up to reply. In short lighting, the face is turned toward Presence and Absence Karen Cordes Spence pp. The Xbox Design Lab has been around for a few years .

Split lighting tends to be a more masculine pattern and as such is usually more puts more of the face in shadow, is more sculpting, add 3D qualities, and is slimming and flattering for most people. Someone with a very round face that wants to appear slimmer in a grad portrait, will be lit very differently than someone that wants a promo shot for their band that makes Shadow Patterns appear mean or angry.
